The Oxford Atlas of The World and India. My favourite feature about this book is its beautiful presentation, with plenty of colour photographs and diagrams to illustrate the various topics of this book. I found the atlas very interesting and engaging to read. It is a wonderful gift book. It's hard to pick just one aspect of this book that I enjoy reading about. This book is a good buy for anyone interested in world history. Posted in Encyclopedia of Indian History, Volume III by Walter K. The Oxford Atlas Of The World And India.
